

For over the past 28 years, Westmoreland Casemanagement and Supports (WCSI) has had the privilege to serve as the Base Service Unit for Westmoreland County, as the entry point to Behavioral Health Services. We embrace the innovative concept of the Human Services Director and Westmoreland County Behavioral Health and Developmental Services (BH/DS) as they begin their initiative of a “no wrong door approach” for all Human Services in Westmoreland County. We have provided the Westmoreland County website link below, for more detailed information regarding their initiative.

We are committed to working collaboratively with BH/DS, to assist in this transition. WCSI will continue to support entry into Behavioral Health Services until June 30, 2023, to ensure seamless assistance to those who are in need of these services.

WCSI staff will be reaching out to all Administrative Case Management clients to discuss their options of:

1. Moving to a Targeted Case Management level of service \*if eligible for TCM
2. Close your Administrative Case Management Services
3. Remain open to the Base Service Unit when it moves to the county office if you have county funded services

Beginning on July 1, 2023, you will utilize 211 to be connected to trained individuals who will help you connect with the services you need.

WCSI remains committed to our Mission, Vision, and Values, and will continue the work as a provider of Targeted Casemanagement Services; Supports Coordination Services; Certified Peer Support Services; Early Intervention Services, along with remaining Westmoreland County funded services of Student Assistance Program (SAP); Prison Treatment Program (PTP); Child and Family Resource Center/Services; and Criminal Justice Liaison Program (CJL).

**If you are interested in receiving Targeted Case Management Services or Peer Support Services, you may call WCSI directly at 724-837-1808.**

We wish to extend our thanks to the Administrative Case Management clients who partnered and trusted WCSI for the past 28 years. This will be a change for you, but we want it to be a positive one. Remember, your personal recovery is the primary focus for all of us.
